

The J. I. Case New Foot Lift Sulky Plow

Meets admirably all the requirements of a successful plow. Its design absolutely insures uniform plowing, so necessary to produce good crops, while its construction eliminates land-side pressure as well as side draft. And with it all it is so simple a boy can operate it. Let us show you all the features which have placed the Case plow so far in the lead.

TEMPE GRADUATE IS HERE ON A VISIT

Miss Margaret Hughes after an absence of eight years is a visitor in Phoenix. She is accompanied by her sister, Miss Celia Hughes. Both have been spending the summer visiting the two big California expositions and will remain here for several days before returning to their home in Weir City, Kansas.

Miss Hughes graduated at the Tempe Normal in 1899. They are the guests of Mrs. Charles E. Arnold of Phoenix and Stephen Hughes, a brother, in Tempe.

A HARD JOB
which to draw for the purchase of the One of the hardest jobs I know of is to take a ride, when you're feeling nice and sociable, in a left-hand drive machine with a fellow who is deaf in the right ear and has to stop the car and turn his head toward you every time you make a remark to him.—Farm Life.

IT.

COBB BACK FROM EXTENSIVE TRIP

State Engineer Brings Message of Cheer to Advocates of Good Roads — Huge Sum to Be Spent for Roads This Year

State Engineer Lamar Cobb returned from an extended trip of inspection through Graham, Cochise and Greenlee counties yesterday.

The object of Mr. Cobb's trip was to take a look at the new roads being constructed, and to look over the plans of proposed roads in those counties.

Mr. Cobb was very enthusiastic over the road situation in the state, and stated yesterday that about \$2,000,000 would be spent in the coming year for roads in Arizona.

In commenting on the road situation, Cobb stated that the road fever was evidently hitting Arizona hard, as an example he made this comparison: "In the past ten years, the total amount spent on good road work has increased from \$100,000 to \$1,000,000, while during the next year it will go over \$2,000,000."

Mr. Cobb's trip during the past few weeks has taken him to Globe, Safford, Duncan, Clifton, Douglas, Bisbee and Tucson.

Gila county has recently passed a \$500,000 bond issue to be used on the roads, while the board of supervisors of Graham county is considering the calling of an election to vote on a proposed bond issue of \$200,000.

The new highway from Clifton to Morenci is one of the best pieces of mountain road ever constructed in Arizona. The five miles from Clifton to Duncan is still under construction, and bids are being asked for three more miles. In Greenlee county they have spent about \$150,000 for roads.

Cochise county has not been as active as her sister counties, but the county engineer is busy making a survey of the highways, preparatory to submitting estimates to the board of supervisors. It is then expected that a bond issue will be voted on probably amounting to around \$750,000.

In Pima county where County Engineer Goetz and Division Engineer Twitchell of Tucson are now in that county aiding the board to ascertain the exact amount needed.

The campaign for membership has only a little more than begun. While Phoenix will be the headquarters of the association, it is proposed to carry it to the more remote parts of the county. Meetings will be held in every community to enlist the interest of dairy-men in all of them.

The members of the executive committee are: for the southside, R. H. McElhenny; for Peoria and Glendale, C. E. Rice; for Buckeye, John A. Dykes; for Chandler and Mesa, Dr. E. W. Wilbur; for Phoenix, east, Mrs. Adalee Springer; Phoenix, central, Thomas Creer; Phoenix, east, A. J. Barnes.

It is the expectation of the promoters of the organization that the membership will ultimately embrace every man in the valley in the dairy business and who expects to remain in it. The campaign for membership has only a little more than begun. While Phoenix will be the headquarters of the association, it is proposed to carry it to the more remote parts of the county. Meetings will be held in every community to enlist the interest of dairy-men in all of them.

Plaid silks are coming in the fore, and charming blouses to go with the darker suits, not to say anything about the combinations of plaid silk with serges and gabardines.

MINE WEEK AT FAIR FOR NATIONAL CONGRESS

September 20-27 Will Be Featured with Session of American Mining Congress at 'Frisco.

The management of the exposition has designated September 20 to 27 as "Mining Week." Mining men from all parts of the world will attend and a program is in preparation that will be instructive and entertaining to the mining fraternity, which also includes the oil and steel men.

During this week the American mining congress, the National Mine Rescue and First Aid demonstration, Mines and Metallurgy day, the Mining and Metallurgical society, will all hold sessions. Mining week has its own program, which will include speeches by men of national and international reputation in the mining world. "The Days of '49, the Days of Gold, the Days of '99," will be reproduced in detail. There will be rock drilling contests and other features of interest. The Palace of Mines will be mining men's headquarters. Here the prospector, the miner, the mine owner, and all their friends, will meet and enjoy talking over the good old days that were, that are, that are to come—renewing acquaintances and having a general good time.

Mining week will be a notable event in the history of the exposition. From Phoenix will attend as delegates to the American mining congress.

HOW MUCH DOES A WAR COST?
At the end of the first year of the war, peace societies have been taking stock. Announcement is sent out that so far the nations involved have spent a sum just about equal to the value of all the farm lands in America. That would be more than twenty-eight billion dollars. The figures are inconceivable, and they may be exaggerated; but that is one way in which you can get an idea of the enormous expense of maintaining armies in the field. If every farm in America was free from mortgage debt, and if every farmer should sell every acre he owns and put the proceeds in the great European war purse, the total amount would pay the last year's bills. It's hard to figure how war pays, isn't it?—Farm Life.

GIRLS! CLEAN AND BEAUTIFY HAIR NO DANDRUFF—25 CENT DANDERINE

Stop washing hair! Try this! Makes hair glossy, soft and abundant.

Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time, this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance. Besides beautifying the hair, onedirected.

application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.
